

Report Identification Number: NY-21-087

Prepared by: New York City Regional Office

Issue Date: Feb 11, 2022

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 1 month(s)

Jurisdiction: Bronx
Gender: Female

Date of Death: 06/27/2021
Initial Date OCFS Notified: 08/13/2021

Presenting Information

On 8/13/21, the SCR registered a report which alleged on 7/13/21, the 1-month-old female subject child passed away for unknown reasons while under the care of the mother. Prior to her death, the infant was an otherwise healthy child. The report further alleged the mother continues to smoke marijuana to impairment while caring for the now four-month-old twin surviving sibling, and when the mother is under the influence, she overfeeds the sibling until she throws up. As of 8/13/21, the mother's marijuana usage was daily. It was unknown if the four-month-old, sustained any injuries.

Executive Summary

This fatality report concerns the death of a 1-month-old female subject child (SC) who died on 6/27/21. The SC died while in the hospital; therefore, an autopsy was not completed by the ME. Medical personnel from the hospital reported the cause of death was transposition of the grade arteries, potentially fatal heart malformation and the manner of death was natural.

At the time of the incident, the SC resided in a NYC Department of Homeless Services shelter apartment with her mother and her twin sister. The father resided elsewhere and was not involved in the children's lives due to incidents of DV involving the mother. The parents had no other children. The mother was not known to ACS prior to this incident.

According to ACS' case documentation, on 6/27/21 prior to the SC's death, the mother observed the SC's mouth move in a "weird manner". The mother called 911. EMS responded to the home and transported the SC to the hospital where she was pronounced dead at 4:45PM on the same day. ACS addressed the concerns of the report with medical providers and learned the child's death was due to the medical condition.

Law enforcement reported there was no arrest and no suspicion of criminality on the part of the mother.

ACS visited the home where the surviving sibling resided with her mother. ACS documented the home had proper sleep accommodation and adequate food provisions. There were no safety concerns noted.

On 10/12/21, ACS unsubstantiated all allegations of the children by the mother on the basis of no credible evidence.

LDSS Response

Upon receipt of the SCR report on 8/13/21, ACS initiated an investigation by contacting LE officers who had investigated the child's death on 6/27/21. ACS also interviewed the mother, hospital staff, ADA, father, and MGP. ACS learned the SC's death was related to a heart condition and the manner of death was natural. ACS also learned the SS also has a medical condition which requires ongoing medical care. The mother was keeping medical appointments and the next medical was scheduled for 9/2/21. The sibling's immunizations were up to date. ACS also established the SS was meeting her developmental milestones and appeared free of marks and or bruises indicative of abuse or maltreatment.

The mother continued to meet the basic needs of the SS and was being supported by the maternal grandparents. Throughout the investigation, the mother had not been observed under the influence of marijuana. She had accepted and was engaged in preventive services. The mother remained compliant with the rules of the shelter.

On 10/12/21, ACS unsubstantiated the DOA/Fatality and IG of the SC by the mother and unsubstantiated the IG and PD/AM of the surviving sibling by the mother citing no credible evidence was found to support the substantiation of the allegations.

The case remained open for services as of the writing of this report.
